Q:02 Read the passage given below and answer the following questions:**(5x2=10)**

My grandmother always went to school with me because the school was attached to the temple. The priest taught us the alphabet and the morning prayer. While the children sat in rows on the either side of verandah singing the alphabet or the prayer in a chorus, my grandmother sat inside reading the scripture. When we have both finished, we would walk back together. This time the village dogs would meet us at the temple door. They followed us to our home growling and fighting with each-other for the chappatis we threw to them.

When my parents were comfortably settled in the city, they sent for us. That was a turning point in our friendship. Although we shared the same room, my grandmother no longer came to school with me. I used to go to an English school in a motor bus. There were no dogs in the streets and she took to feeding sparrows in the courtyard of our city house.
