When a lion was sleeping, a mouse ran over his nose. The lion caught the mouse and was about to kill it, but the mouse convinced him to let her go as he promised to help him later when he needed it. A few days later, the lion got caught in a hunter's net and was unable to get out. His loud roar alerted the mouse who arrived and bit through the net to help the lion escape. So the lion and the mouse became best friends.
